Section B.

GENERAL PROVISIONS OF HEALTH SERVICES IN THE AREA.

1. Medical.

The Medical Officer of Health is not in private practice and holds the appointment of Medical Superintendent of the Repton Joint Isolation Hospital.

Tuberculosis Officers and Medical Officers for School, Maternity and Child Welfare work are employed by the Derbyshire County Council.

2. Non-Medical.

For sanitary administration the district is divided into two areas, North and South, each in charge of a Sanitary Inspector.

(a) Laboratory Facilities.

The Derbyshire County Council maintain Bacteriological and Chemical Laboratories at their offices in Derby, which are freely used by practitioners throughout the district.

(b) Ambulance Facilities.

The Ambulance service throughout the district is adequate for normal requirements.

Infectious Diseases:-

An 18-H.P. Commer Motor Ambulance is maintained by the Repton Joint Hospital Board at the Hospital, Etwall, for the removal of infectious cases.
Telephone No. Etwall 5.

Non-Infectious.

The following Ambulances are available:-

Derby Fire Station	Telephone Derby No.2222	Derby Corporation Ford 22-H.P. which carries 2 stretcher cases.
Derby 146, Burton Road	Telephone Derby 4361	Red Cross Society's Ambulances: (1) Bedford 26-H.P. for 2 stretcher cases or 6 sitting cases. (2) Ford 23-H.P. for 2 stretcher or 4 sitting cases.

Health Visitors.

The Derbyshire County Council have the following Health Visitors working in the District:-

Miss Noble	North Rural
" Wilson	South Rural
" Stevens	Linton and Castle Gresley.

Section C.

SANITARY CIRCUMSTANCES OF THE AREA.

WATER SUPPLIES.

Piped supplies come from the following sources:-

(1) Mickleover Parish and part of Stenson Road in the parish of Twyford & Stenson, are supplied from the Derby Corporation mains.

(2) The South Staffordshire Waterworks Company supplies the following parishes:- Castle Gresley, Cauldwell, Coton-in-the-Elms, Egginton, Etwall, Findern, Hilton, Linton, Lullington, Netherseal, Newton Solney, Repton, Rosliston, Walton-on-Trent, Willington, Drakelow, and a large part of Bretby.

(3) The Parish of Hatton and part of Foston are supplied by water purchased from the Tutbury Rural District Council.

(4) The Parishes of Woodville and Overseal are supplied from a well at Smisby, supplemented by water obtained from the Ashby and Swadlincote Joint Water Board. The hamlet of Milton and part of Bretby have also a piped supply from the Ashby and Swadlincote Joint Water Board.

(5) The Parish of Hartshorne is supplied with water from springs at Several Woods, which gravitates to a covered reservoir, and the Parish of Ticknall from springs in the village, which is pumped up to a high level reservoir and distributed by gravitation; the supplies are ample.

The remainder of the parishes are supplied from wells and springs.

During the year 21 samples of water have been sent for analysis, 10 were examined chemically, and 11 bacteriologically.

Netherseal.- Twelve Council houses in Main Street now obtain drinking water by means of three standpipes, from the South Staffordshire Waterworks Company. The water will be laid inside the houses after the war.

Chlorination of Water Supply.

Preparations have been completed on the Council's Water Schemes, in readiness for the installation of the chlorination plant. The plant will be installed immediately all the parts are delivered.

Woodville and Overseal Joint Water Scheme.

The leaks in the Water Tower on the above Water Scheme have now been repaired, with the consent of the Ministry of Health.

SEWERAGE & SEWAGE DISPOSAL.

Report of Engineer & Surveyor.

Hatton.- The Sewage Pumping Station at the Hatton Sewage Works site is now under construction, and it is expected that it will be brought into operation in the very near future.

Hilton.- The sewage from the last four Council houses erected in Sutton Lane, Hilton, which was treated in individual cesspools, has now been connected to the public sewer. This has abated the nuisance created by the cesspools.

Milton.- The sludge beds at this Sewage Works are in course of being under-drained.

Repton.- Maintenance repair works and alterations have been carried out at this works, including the under-draining of the sludge beds and the laying of mains between the storm tank and filters and the storm tank and sludge beds.

SEWERAGE & SEWAGE DISPOSAL

Report of Engineer & Surveyor (contd).

Sunny Hill, Stenson (34 houses).- The storm relief manhole and sewer have now been constructed for the purpose of carrying away the storm water entering the Council's sewer from the Shardlow sewerage systems, and flooding the 34 houses. The storm water discharges into a ditch, (previously cleaned out) which leads to Hell Brook.

Willington.- Work on the construction of the Sewerage and Sewage Disposal Scheme for this parish is continuing very slowly. It is hoped that the Scheme will be sufficiently completed in the very near future to accept the sewage from at least some of the properties.

Woodville.- The approval of the Ministry of Health has been received for the construction of a new Sewage Pumping Station at Occupation Road, Woodville, to replace the existing one rendered useless by mining subsidence. A tender has been accepted for the construction of the Pumping Station, and it is hoped that work will commence in January, 1942.

(1) CLOSET ACCOMMODATION.

The number of each type at the end of 1941 for the two districts is given below:-

	<u>Northern</u>	<u>Southern</u>	<u>Total</u>
Number of inhabited houses at the end of 1941	3320	4391	7711

Section C.

(3) SHOPS AND OFFICES.

Administration of the Shops Act, 1934, is carried out by the Rural District Council within their district, and delegation of powers from the County Council has been received with respect to -

1. Retail Meat Dealers Shop (Sunday Closing) Act, 1936.
2. Shops (Sunday Trading Restriction) Act, 1936.

No offences or contraventions of the Act were discovered. Infringements were chiefly in respect of the shopkeepers failing to display the weekly half-day closing notice or the hours of closing.

(4) CAMPING SITES. None.

(5) SMOKE ABATEMENT. Hatton, Messrs. Nestle's Factory Chimney.

The new chimney is in course of erection but the smoke emitted from the old chimney does not appear to be so bad as formerly, this is I think partly due to the newly-installed mechanically fired boilers, and a better fuel being used.

In the Southern District there were no cases in which it was necessary to take action as regards factory chimneys.

(6) SWIMMING BATHS AND POOLS.- There are no swimming baths or pools open to the public.

(7) ERADICATION OF BED BUGS.- No complaints of this pest were received.

(8) SCHOOLS.- Church Broughton Church School is still without a piped supply of water, and drinking water is obtained from a private pump on cottage property opposite.

Closure of Schools for Infectious Disease.

It was not found necessary to close any schools for infectious diseases.

	(2) Number of persons concerned in such cases	173
(d)	Particulars of any cases in which dwelling-houses have again become overcrowded after the Local Authority have taken steps for the abatement of overcrowding	-

Owing to the large number of people evacuated from industrial areas under the Government Scheme, and also privately to relatives and friends, it is not possible to give accurate overcrowding figures. The above figures are the same as those given for the 1940 Annual Report.

Section E.

INSPECTION AND SUPERVISION OF FOOD.

(a) MILK SUPPLY.

Examinations of samples for bacterial count and for tubercle Bacilli, and the Milk (Special Designations) Order, 1923, are carried out by the County Council.

The administration of the Milk and Dairies Order, 1926, is carried out by the District Council.

The standard of Cowsheds and Dairies has been improved, and Accredited milk is being produced in the District.

Samples of milk, etc. are taken by an Inspector of the County Council and analysed by them.

MILK (SPECIAL DESIGNATIONS) ORDER, 1936.

Pasteurised milk is produced in bulk at the Wilts United Dairies Ltd. Egginton Branch, to whom a 'Pasteuriser's Licence' authorising the use of the special designation was granted, and a sample of this milk is taken quarterly for phosphatase test.

'Accredited' milk licences are granted by the County Council, and have resulted in many improvements in the sterilizing arrangements at farms.

The following is a statement of the work carried out to Cowsheds and Farms under the Milk and Dairies Acts and Orders:-

Section E.

(b) MEAT AND OTHER FOODS.

The number of slaughter-houses in the District is 30, and the number of Licences granted to slaughtermen was 33.

Periodical and surprise inspections were made at slaughter-houses, shops and vehicles, and food supplies were uniformly good.

Under wartime restrictions, all meat is allocated from various Government controlled centres, and any complaints as to unfitness are dealt with by the Slaughter-house Manager.

Contamination of Foodstuffs by Poison Gas.

The Ministry of Food in conjunction with the Ministry of Health and Ministry of Home Security, requested the Council to provide facilities for dealing with this matter. The rural district was searched for sites for a suitable depot, but none of those inspected were found to be adaptable. The recommendation of the Ministry to combine with other Authorities was then considered, and arrangements were concluded with the Borough of Burton-on-Trent and the Rural District of Tutbury, to provide a suitable site at Burton-on-Trent, and in the meantime to ear-mark sites at Messrs. Nestle's factory at Hatton, and Messrs. Wilts United Dairies, Egginton Depot, should an emergency arise.

Section F.
